Happy New Year

Happy new year
you're wearin a crown
Happy new year
I wear a little beard
How could anyone be unhappy
with a princess crown
a vacation beard
Happy new year

Hookey

Everybody needs a little time
A little time can be so hard to find
Saturdays and Sundays not enough
or is it just that I get so much pleasure
knowing I'm not in that rush

Unplug the alarm turn off the phone
I'm playin hookey once again
I'm takin this day back as my own
I'm playin hookey once again
The necessary evil I hate to condone
Routine just for today leave me alone

As the day slips away I wonder
what will they play
I'llinko, yodeling mountain boy
What's in the big showcase
So this is what my cats do when I
pick up that worldly pace
The ice cream truck oh yeah
Just my luck, curbside embrace

I'll leave my dentures by the throne
I'm playin hookey once again
I'm takin this day back as my own
I'm playin hookey once again
The necessary evil I hate to condone
Routine just for today leave me alone

I always have and I always will
and when I retire I'll play hookey still
from a part time job
this old man's gonna skip a day
stay home and play
rockin in my chair how nice to say

I'll leave my dentures by the throne
I'm playin hookey once again
I'm takin this day back as my own
I'm playin hookey once again
The necessary evil I hate to condone
Routine just for today leave me alone
Leave me alone
Leave me alone

Universal (It's You)

You were with me through it all
It's Universal It's You
You always came when I called
It's Universal It's You
Prince of Love, The Milker San
It's Universal It's You
Commands me with his loving bond

Run home to hope a smile
You're standin smilin at me
White paws always close around
You learn to love the smell of wee-wee
It's Universal It's Universal
It's Universal It's You
It's Universal It's Universal
It's You

You were with me through it all
It's Universal It's You
You always came when I called
It's Universal It's You
Prince of Love, The Milker San
It's Universal It's You
Commands me with his loving bond

Don't matter what we're payin
to take a walk and then to spray him
He don't need his sight and sound
to feel with love his way around
It's Universal It's Universal
It's Universal It's You
It's Universal It's Universal
It's You

What can you see
What can you hear
Can you feel me calling your name

What can you see
What can you hear
Can you feel me calling your name

It's Universal It's Universal
It's Universal It's You
It's You It's You

Theremin Flu

It don't matter if I drink it down
or take it in a couple pills
I only know I need relief right now
so bring my remedy and bring refills

Theremin Flu Theremin Flu
Don't know what I'd do
without the Theremin Flu
Theremin Flu

And yeah I know my words
are slurred up strange
and object dyslexia is ruinin my brain
I'd rather have it this way all day
than shiver and scratch my skin away

Theremin Flu Theremin Flu
Don't know what I'd do
without the Theremin Flu
Theremin Flu

Corner Sweeper

A couple backpacks
no guns and no knives
A couple million
and they all stay alive

We'll exit up
to the rooftop unafraid
then jump and swing
like Tarzan away

on hanging electric lines
I snapped
so wear these rubber gloves
to avoid the zap

and yes they'll leave you alone
you'll be just fine
cuz you're my brother
not my partner in crime

Don't care where the money goes
Don't care if nobody knows
Miss the funeral cuz we're
hot on the run
and nowhere near done

And you wanna go back home
Don't you worry man
you aint alone
but you won't become
what this has become

Corner sweeper, corner sweeper
Blood runs deeper
than the corner sweepin keeper

This mornin what did you do
Ate breakfast then slept til 2
Maybe strum some beauty
in your head

Well this walk won't be your last
yeah believe me brother
we'll be walkin fast
This fusebox spews the silk
of a brand new sticky web

Proposition 19

Proposition 19
Proposition 19
How many potholes
beat their wives
and how many drunk men
start up fights

Oh Ezmerelda

Amateur, amateur
I'm an amateur, amateur

Don't know what you want
by the look on your face
Don't know if you want
to leave this place
Don't know what you feel
Don't know what you need
I only know this is
the hardest choice for me

Ezzie
Wish the storm had
taken us all to sea
Ezzie
Had it swept us up
there'd be no call to make
you see
and I've never been
good at farewells
especially when it falls on me
to ring your bells
I'm not good at this at all

Amateur, amateur
I'm an amateur, amateur

Now Laura next door
She's got six
She pays their bills
when they get sick

The birds begin their symphony
So beautiful it stings
but not too long til I'm dreamin

Theremin Flu Theremin Flu
Don't know what I'd do
without the Theremin Flu

Theremin Flu Theremin Flu
Gotta get it to me
so I can get back to you

Theremin Flu Theremin Flu
helpin me helpin you
with the Theremin Flu

Theremin Flu

Corner sweeper, corner sweeper
Blood runs deeper
than the corner sweepin keeper

A couple backpacks
no guns and no knives
A couple million
and they all stay alive

We'll exit up
to the rooftop unafraid
then jump and swing
like Tarzan away

on hanging electric lines
I snapped
so wear these rubber gloves
to avoid the zap

and yes they'll leave you alone
you'll be just fine
cuz you're my brother
not my partner in crime

Don't care where the junkies hide
Don't care where the gambler died
or where his train was bound now
we're on the run

and you wanna
fold, walk away, call it quits
make a phone call and lose your wits
I'm damned sorry man
but I can't let you go

Corner sweeper, corner sweeper
Blood runs deeper
than the corner sweepin keeper

Corner sweeper, corner sweeper
Blood runs deeper
than the corner sweepin keeper

Proposition 19
There's so many things
that it could mean
I wish that we could
vote for it in Virginia

As we prepared for the storm
she said don't delay
Extended outage
she could suffer for days

My Funnyface
Wish the storm had
taken us all to sea
Ezzie
Had it swept us up
there'd be no call to make
you see
and I've never been
good at farewells
especially when it falls on me
to ring your bells
I'm not good at this at all

Oh Ezmereldie, Ezmereldie
What are ya thinkin Ezmereldie
what ya thinkin bout me

Ezmereldie, Ezmereldie
What are ya thinkin Ezmereldie
what ya thinkin bout me

Ezmereldie, Ezmereldie
What are ya thinkin Ezmereldie
what ya thinkin bout me

Ezmereldie, Ezmereldie
What are ya thinkin Ezmereldie
what ya thinkin bout me

Still (2013 Cricket Remix)

It's a foggy night
and you've had a long week
All I want is to relax with you
Cigarettes and coffee yeah
you managed to smile
Let me leave the tip
if it's alright with you

Okay
Tonight we'll go our separate ways
Don't wanna leave you
but I know it's right
This night, tonight
the stars can't say a thing
to us but still I know

Saturday
U-Turns til Sunday
Sidewalks are empty
but I'm still tryin
Can't see ahead
I don't look behind
Your ease of mind
keeps on satisfying

Lay still
Rock idol dreams
Take you where they will
Wish I could dream with you
after I sing with you
but I'll get my kicks
off downtown rhymes
and magic tricks
but still, still I know

It's a foggy night
and you've had a long week
so I gotta keep desire deep
within my out of reach zone
alone without a phone
explore the shady undertones
you let the night
massage your bones
every one exhausted
it won't cost you nothin
but still, still I know

On the Ground featuring Shakespeare's Ghost

Dump it on another world
like I'm crawl in a cliff
It weighs you sick a thousand pounds
but I'm not fallin' if
If the rain fell up not down
we'd breath untill we drown
how much longer for this cloud
s'not much farther now

I'd hold my face close to your breath
now whisper me a wish
You'd turn your head till chill is found
would you believe me if
If the rain fell up not down
and lips could hear while ears made sound

That mean she taste it when she touch me
damn it face it pretty's ugly
when ya chick is pretty lovely
want it softly get it roughly
black cat i think you're lucky
let's step on some cracks just trust me
let's step under chutes and ladders
till the thunder shoots and shatters
mavin matter wit 'our lips
mavin mountains with a kiss
time exist to timelessness
damn it girl what is it?
if i said i cared i'm lying
baby are you scared of flyin
i know that i am terrifying
but aint life just death defyin

Three long months we're in a dream
and nothing's like it seems
Darkness lingers over town
and i'm not even found
If the rain fell up not down
we'd breath untill we drown
and storms could blow the sun around
it's not much father now

Now they're all runnin for their lives
runnin runnin runnin
Runnin from what makes us proud
If the rain fell up not down
would you stay with me on the ground

or just fadeaway
or work a way to stay n play
nothing golden ever stay
look-a-what life has stole away
we sold our days to buy our nights
left our maze, made no rights,
blazed our trays in blazin lights
through this shady, hazy, crazy life

If the rain fell up not down
but if thats the way the rain fell
we would be some angels

If the rain fell up not down
but if thats the way the rain fell
we would be some angels

If the rain fell up not down
but if thats the way the rain fell
we would be some angels

If the rain fell up not down
but if thats the way the rain fell
we would be some angels

oh yeah we angels but we got dirty wings
and our dirty thoughts get us in dirty things
this world is dirty now
it's lost and cant be found
but when it blow up
Would you stay with me on the ground
or just let me go
ex out the x and o's
roll with the trolls sell ya soul
and collect the dough
being normal is something
that u will never know
I'm sorry baby thats the
meanin of exceptional

Marcel's Foil (live at Hampton Taphouse)

Believe my eyes
Hear my cry
Something was out there
as sure as we behold
the ever twirling sky

I wanna know them
I wanna learn
All we got's a hostage of war
Redefine boundaries
Declare that Pluto's
not a planet anymore
Kill the expansion
A billion years of knowledge
bartered for folklore

Try making this home
and cry for the unknown
Remember Marcel's Foil
shining scattered
in the sandy stone
BUILT perfectly strong
Craftsmanship dead on
Remember Marcel's Foil
shining scattered
at the break of dawn

and as for all your advancements
I don't wanna know
Speak about your great mission
I don't wanna know

All of the answers
to all of your questions
will never show
Way to go status quo

Try making this home
and cry for the unknown
Remember Marcel's Foil
shining scattered
in the sandy stone

and as for all your advancements
I don't wanna know
Speak about your great mission
I don't wanna know
All of the answers
to all of your questions
will never show
Way to go status quo

Believe my eyes
Hear my cry
Something was out there
as sure as we behold
the ever twirling sky
